

CASE STUDY

Magellan Midstream Partners, L.P., Wilmington Expansion Project

CLIENT CHALLENGE

Magellan Midstream Partners contracted APEX to provide comprehensive piping and fabrication solutions for their Wilmington, Delaware expansion project, including:

- Tank piping
- Vapor recovery system
- 8-bay truck loading rack
- Concrete work
- Pig launcher and receiver
- Fire suppression system
- Structural steel supports
- Equipment testing and startup

APEX SOLUTION

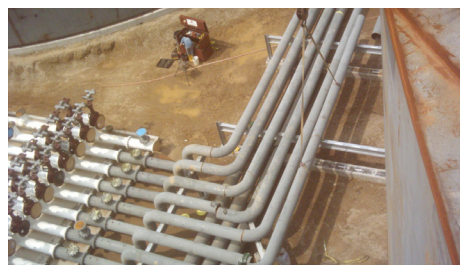

APEX invested a total of 66,701 working hours into the project and completed all aspects according to Magellan's detailed specifications with zero injuries. Services were provided in our controlled shop environment, as well as in the field at Magellan's facility.

- 38,000 ft. of C/S pipe used
- 2,000,000 lbs. of steel used in fabrication and piping
- All piping primed with inorganic zinc primer
- 4,000 shop welds
- 1,500 field welds
- Post-weld heat treatment (PWHT) of lines
- 70% of pipe prefabricated
