

APEX

Mechanical & Fabrication

At the Pe

APEX Mechanical & Fabrication

is the preferred supplier of mechanical services and shop fabrication in the region that provides excellent work and rewarding career opportunities. We're recognized for superior safety programs, consistent quality output, and our efficient end-to-end approach that's driven by our team's dedication to service. Our work and approach are proven to optimize the cycle of cost, safety, quality, and schedule for our clients.

ak of Excellence™

OUR MISSION

To provide excellent work for our clients and rewarding careers for our team through passion for our craft.

OUR VALUES

The work isn't crafting values, it's living them.

We're dedicated to safety.

It's ingrained and enforced. Safety drives every action and choice we make.

We're focused on quality.

We get it right the first time, ensuring every product meets or exceeds quality requirements.

We're passionate about service.

We love helping our clients and one another succeed by providing exceptional service in all we do.

THE APEX ADVANTAGE™

Capabilities for every project. Efficiencies at every turn. Results for every stakeholder.

Our mix of Mechanical Services and Shop Fabrication capabilities bring flexibility, performance, and savings to every job.

APEX Capabilities

With APEX you'll see the difference, feel the energy, and be confident you chose the right team!

Safety that's second to none

Exceptional work starts and ends with safety—there's no job without it. At APEX, our people know safety is equivalent to performance and make every decision based on it. Our comprehensive safety management system directs everything we do, from rigorous goal setting and employee training to project planning through completion. This, along with our ingrained safety culture, has earned us an EMR better than industry benchmark and a TRIR that consistently meets industry standards.

Quality that never quits

Quality is what our industry is all about—but, delivering quality the first time around is what APEX is all about. We know your job depends on the success of our job, so we do everything just right from the start. Our robust ISO-certified Quality Management System coordinates and directs our activities to meet client requirements, comply with regulatory standards, and continuously improve our organizational efficiency. With ASME BPVC certificates of authorization, master craftsmen, upwards of 200 welding and forming procedures, and world-class fabrication shops, we're equipped to handle any project with precision and deliver it on time and on budget.

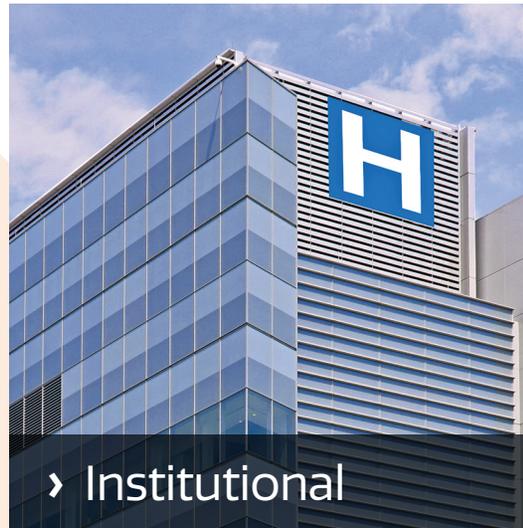

Master craftsmen who care

Machinery can only take a job so far—the rest requires hard work, experience, and passion. APEX maintains a strategic balance of seasoned craftsmen and fresh talent who bring the optimal skill and energy levels to every job. We rigorously mentor and train our team members to ensure continuity and consistency across our work, and ultimately pave the way for the future of our craft. With our people on your project, you'll feel the energy, see the skill, and be confident that you chose the right team.

Efficient approach that saves

Cost, safety, quality, and schedule are the performance metrics that matter to your job—and APEX's mix of mechanical services and shop fabrication capabilities bring efficiencies to every project. With our world-class fabrication shops and unique processes, plus automated machinery for pipe bending, metal forming, welding, and assembly, we reduce material and labor costs, and improve safety, quality, and schedule. Our efficient approach and mix of capabilities bring flexibility, performance, and savings to every job.

OUR QUALITY CERTIFICATIONS

WHAT OUR CLIENTS ARE SAYING

"...for any ABB product that has been fabricated by APEX, there has never been one issue of sub level quality or failure reported..."

Sr. Product Manager,
ABB Inc.

"...attention to detail and competency for installing system distribution piping was very evident in the quality of the finished product."

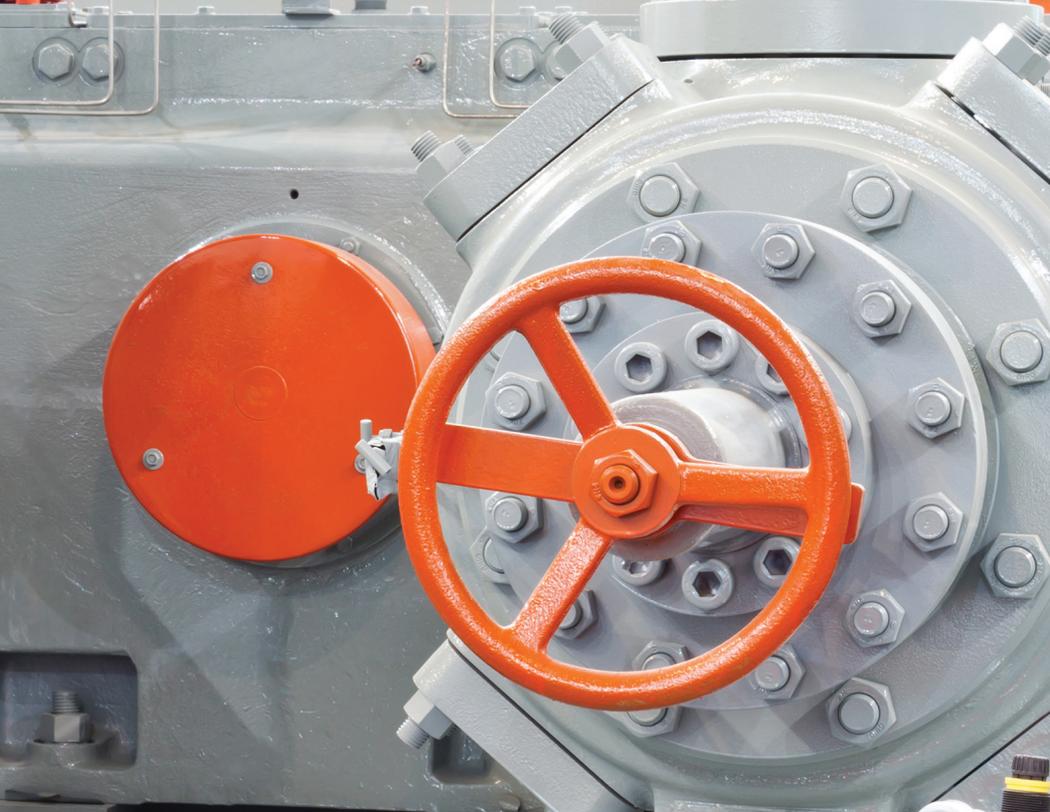

Assistant Director,
University of Delaware

"...APEX has and continues to ensure completion of projects with high quality workmanship and safety performance."

Site Engineering
Manager, Croda, Inc.

"APEX did an excellent job with this contract. All systems were shipped to us on schedule and in good condition. Field installation and final commissioning of all components was performed successfully."

Project Manager,
Buckeye Partners, L.P.

THROUGH THE YEARS

1965 Galaxie Manufacturing, acquired later by SL Industries, is founded by a DuPont engineer

1996 APEX, incorporated in 1995, acquires SL Piping Systems

1997 APEX establishes Mechanical Services division

2005 APEX establishes Boiler Services division

2015 APEX establishes Sheet Metal & HVAC and Commercial Plumbing divisions

Now APEX is a preferred supplier of Mechanical Services & Shop Fabrication

OUR COMMITMENT

APEX is committed to meeting the specific needs of all stakeholders involved in a mechanical and shop fabrication project.

We understand what matters at each stage of the job and recognize that you're trusting us with your reputation. We also know that we want you to choose us over and over again.

So, we've labored over our processes, capabilities, and approach to ensure every need is met along the way. **No matter what your role in the project entails, we have your back.**
