

# PIPE, SHEET METAL & STEEL FABRICATION

With more than 180 precision welding & forming procedures, APEX is a leading fabricator of pipe, sheet metal, structural steel, and plate, in materials from aluminum to zirconium. Our specialty pipe and sheet metal fabrication capabilities include pipe spools, manifolds, ASME Code and Non-Code pressure vessels, process pipe modules, sheet metal, and OEM parts. We partner with owners, engineers, architects, and many of the fortune 500 companies, providing skilled craftsmen and quality solutions.

## SPECIALTY FABRICATION

- Close-Radius Pipe Bending
- Lap-Joint Flaring
- Pipe Spools – Pipe Coils
- OEM Products – Heat Exchangers
- Flow Meters – Mixers
- Gas Turbine NG Gas Manifolds
- High Alloy Fabrication & Forming
- Aluminum, Hasteloy, Nickel, Titanium
- Code & Non-Code Pressure Vessels
- Skid Mounted Process Systems
- Specialty Product Design, Fabrication
- Jacketed Piping Systems
- Automated & Robotic Welding

## SPECIALTY FABRICATION SERVICES

- Design & Build
- CAD, 3D, Detailing
- ASME Code Calculations
- Hydro – Pneumatic Testing
- NDT – Radiography – UT
- Visual – MT – LPT – CWI

## STRUCTURAL STEEL CAPABILITIES

- Structural Detailing
- AWS & D1.1 Certified Welders
- Specialty Coatings
- Hot Dipped Galvanizing
- Bending
- Cutting & Machining
- Turnkey Fabrication & Installation
- Mezzanines – Stairs
- Catwalks – Handrails
- Ladders & Cages
- Industrial Plant Additions
- Pipe Bridges & Supports
- Structural Steel Modules
- Plate Fabrications
- Rolled Angle & Channel
- Architectural – Sculptures
